

SINGLE ORIGIN CEYLON

ICED TEA

CONCENTRATE RANGE

The refreshing taste of Summer, available all year round.

When your customers are looking for refreshment on a hot day, there's nothing better than iced tea.

Alchemy's Iced Tea Concentrates allow you to offer delicious and high margin iced teas by the glass or jug that can be made with ease. We've combined premium Ceylon black tea with natural flavours to create satisfying drinks that are ice cold, a little tart and not too sweet.

A FLAVOURFUL EXPERIENCE

We're obsessed with flavour, so you know they will taste amazing, and of course they're Vegan Friendly and Gluten Free. Our **1:10 dilution ratio** keeps things simple for you – just mix one part of our Iced Tea Concentrate with ten parts still or sparkling water.

Our Iced Teas are completely natural and are free from artificial colours, flavours and other common nasties you'd typically find in other cordial brands.

GREAT FOR YOUR POCKET & THE ENVIRONMENT

We care about our planet, which is why we make beverage concentrates!

This means less single use packaging and higher margins from our drinks than bottled iced teas made by multinationals, bringing more money back into your pockets.

They're so versatile, you can even use our concentrates to create your own signature drinks.

TASTE THE DIFFERENCE FOR YOURSELF

Customers don't want a pre-made beverage. They want a rich, flavourful experience.

Not only are our Iced Tea Concentrates easy to use and incredibly versatile, but the delicious and refreshing taste will leave your customers wanting more.

Available in three 750ml concentrate flavours

INGREDIENTS

Australian Cane Sugar, Water, Single Origin Ceylon Black Tea Powder, (3.5%), Food Acids (Citric Acid), Antioxidant (Vitamin C), Natural Flavours, Preservative (Potassium Sorbate).
